MONTANA

REGULATIONS

Turn In Poachers 1-800-TIP MONT or 1-800-847-6668

Welcome To Montana

For almost half of Montana's residents—and nearly 60,000 or our nonresident guests—fall means hunting season. One of the ingredients for a successful hunt is healthy wildlife populations. And that ingredient requires productive habitat, which in turn requires active resource management.

Because such a high percentage of wildlife habitat in Montana is found on private lands—65 percent of our mule deer, and more than half of Montana's mule deer harvest, occurs on private land—FWP is dedicated to working with landowners. Our dual aim is to work together to continue to provide quality habitat and to enhance hunting and fishing opportunities.

Our best hunters make it a point to acknowledge the contribution of Montana's landowners. Whether it is a simple thank-you note, or just spending time getting to know the landowner outside of hunting season, first-rate hunters know that showing their appreciation can go a long way toward being welcomed back. They also know that an awareness of potential problems—like the spread of weeds or drought-related fire danger—will help allay just about every landowners' concerns about the character of the hunter who is extended the privilege to hunt on private land.

On the other side of the fence, landowners who acknowledge that hunters can play an important role in reducing crop damage by keeping game herds in check are helping their own cause, too. Growing numbers of landowners are providing access through FWP's Block Management Program, which has opened more than eight million acres of private land to public hunting. Many landowners have also received assistance in improving their lands for wildlife through FWP's waterfowl and upland game bird enhancement programs. Hunters help fund these programs, as well as a majority of all FWP wildlife endeavors.

Landowners and hunters in Montana have been part of a unique and successful partnership. This time of year, it is important to remember that it is up to each one of us—hunter, landowner, and resource manager—to do our part to continue this special tradition.

Sincerely,

M. Jeff Hagener

What's New In 2002?

Region 7 Over-The-Counter Antlerless Deer B licenses for Nonresidents

- Nonresident antlerless whitetail deer B licenses valid in all 700 districts are available from Miles City FWP headquarters, see pages 19 and 75.
- Nonresident antlerless mule deer B licenses for the state are available only through the special drawing process.

Hunter Education Requirements for Convicted Violators

- Convicted violators may be required by the courts to attend a remedial hunter education class as part of their sentencing. See page 17.

Black Bear Identification Test

- Certificate Required To Purchase A Black Bear License. See page 12.

Hunting Access Enhancement Fee. See page 12.

Two-Day Fishing License for Montana Residents. See page 12.

To apply for 2002 special license and permit drawings you must use the new codes referenced in this regulation booklet. See page 20.

Reminders

Archery Equipment Standards

- The FWP Commission adopted equipment regulations specific to archery in Montana. Regulations require that a compound bow's maximum "let-off" not exceed 80 percent, the bow can be no shorter than 28 inches, and a broadhead is also defined. See page 15.

Landowner Permission Required

- Montana law requires that hunters must have permission of the landowner, lessee or their agent before hunting on private land. See page 9.

Motion Device

- New Legislation restricts the use of motion tracking devices while hunting. See pages 13-14.

Social Security Number Requirement

- Resident and nonresident hunters, including youth, purchasing Conservation Licenses and licenses obtained through a special drawing, by law must provide their Social Security number. See pages 7 and 11.

Mule Deer Hunting - Statewide

- Because buck numbers have recovered in many areas of the former "Southwestern 8" (southwestern Montana), and thus buck-doe ratios are in better shape, deer management objectives have been met or exceeded in many districts. In those districts where buck-doe ratios are still less than our deer management plan calls for, unlimited permits will be required for buck mule deer hunting. Check individual hunting district regulations for specific requirements in that hunting district.

"Trophy Criteria" for Restitution

- New Legislation sets higher restitution values for persons knowingly or willfully taking "trophy" animals unlawfully. Visit our website at fwp.state.mt.us for details or see page 17.

Licensing Reminders

- ALS—Automated Licensing System.
  - Beginning March 1, 2002, Montana hunting, fishing and other recreational licenses will be issued via an automated licensing system (ALS).

  - Montana's license year is March 1 through February of the following year. EACH YEAR a person must purchase a conservation license to be authorized to purchase any fishing or hunting licenses(s). However, beginning in 2002, the conservation license will not have a unique number of its own; it will have only the ALS number. This number is printed in the upper right-hand corner of your 2002 license.

- A Hunting License can be issued either over-the-counter or through special drawings. It authorizes the holder to hunt the species identified on the license according to the regulations specified. This hunting license (also referred to as a "tag") must be attached to the harvested animal to show authorization to hunt and harvest that particular animal. Please refer to the section on "Procedures To Follow Upon Harvesting An Animal", page 16, for complete instructions on what to do when an animal is harvested.

- A Permit is issued through special drawings and must be used with a specific hunting license. A permit is NOT a second license and does not allow the holder to kill an additional animal. Rather, it enhances their opportunity in a specific area.

- If you lose your license or permit, duplicates may be obtained from any FWP office, game warden, or some license agents. Hunters must sign a statement on the duplicate license form declaring their originals were lost and are no longer in their possession. If found, they must be returned to FWP immediately.

DEADLINE:

- The purchase of a license **on** or **before** its deadline date; or an application correctly completed and sent in with a postmark **on** or **before** its deadline date.

Frequently Asked Questions

Q: Where can I hunt?

A: Montana offers many hunting opportunities on public and private land. Each public land agency administers use differently, so hunters need to contact the appropriate public agency and inquire about hunting use, regulations, and maps.

Hunters must obtain landowner permission in order to hunt on private property. Some landowners enroll annually in an FWP-administered program called Block Management, see page 9. Regional lists of landowners are available to the public in mid-August each year. To find information about this program, visit **http:\\www.fwp.state.mt.us/hunting/blockman/index.index.html** or contact the regional office closest to where you want to hunt.

Q: I drew an antlerless elk permit. Can I still hunt a bull in this district?

A: No. You are restricted to hunting only an antlerless elk in that district during both the ARCHERY and the GENERAL season. You may hunt elk, as specified in the regulations, in all other elk hunting districts in the state.

Q: What should I do if I lose a hunting or fishing license?

A: Duplicate licenses may be obtained from FWP regional headquarters, area offices, and license providers. Hunters must sign a statement declaring their original license was lost and is no longer in their possession. If the original license is found, it must be returned to FWP. The fee varies depending on what's being replaced, but will not exceed $5.

Q: I'm confused about the 00, 10, 20 numbers listed after a hunting district. What do these numbers mean?

A: These 5-digit codes (Elk 100-00, Deer 312-50, Antelope 620-10) represent different opportunity types (antlerless elk permit, limited buck permit, antelope doe/fawn license) that may be valid for different age/sex classes of animals, dates or areas. We have modified the codes for the 2002 hunting season by species in order to make them consistent among all regions and districts. Some codes may have changed from those used in previous years. Please note carefully the code associated with the permit or license type that you wish to apply for this year.

Q: What provisions does Montana have for nonresident hunters with a disability?

A: Montana has reserved a number of licenses for antelope hunting for hunters with a disability. The deadline to apply is June 1, see page 22. Montana also has a *Permit to Hunt from a Vehicle* which allows those qualified to get a special stamp on their license and four decals to display on their vehicle that authorize that individual to shoot from a vehicle, see page 22. To request this application call 406-444-2535.

Q: Can I use a crossbow during the archery season?

A: No. But you can use one during rifle season.

Q: Can I carry a handgun during bow season?

A: Yes. It cannot be used to finish off an arrow-wounded animal.

Frequently Asked Questions

Q: What if I witness a hunting violation, how do I go about reporting it?

A: Try to report as much information as possible. Helpful information includes: violation date, time, location; nature of the violation; type of vehicle used -- year and color; license plate number and state; and whether or not you witnessed the violation. In nearly all instances it is best not to confront a violator in the field. If it is safe to photograph or video, do so. Do not try to obtain evidence of the violation. Call the local Game Warden, Sheriff's Office, or dial 1-800-TIP-MONT as soon as possible.

Q: What happens to confiscated game animals?

A: In the past, these animals were auctioned off at local FWP offices. The Montana Legislature mandated that these animals be offered to charitable food organizations such as Food Banks, Rescue Missions, etc., before being auctioned off.

Q: Can I archery hunt deer, elk or antelope and at the same time, bear hunt with a gun (i.e., can I carry a rifle with my bow and arrow when both the firearm and archery seasons are legally open)?

A: Yes, see page 14.

Q: Can I use my bow during rifle season and will I need a bow and arrow license?

A: Yes. You can use your bow during rifle season, but you must wear hunters' orange. You do not need to have a bow and arrow license, see page 14.

Q: I was lucky enough to draw, but an emergency situation has come up. Can I get a refund?

A:

Reason	*Deadline*	*% Refund*
Death of licensee	12/31/02	100%
Death/family member	12/31/02	90%
Medical emergency	12/31/02	90%

The appropriate documentation (death certificate, medical statement, etc.) must accompany the unused license and a signed request form certifying the licenses have not been used.

Nonresident Combination License holders may call 406-444-2950 for further information.

Q: What do I do if I mistakenly kill an animal?

A: Field dress the animal to keep it from spoiling. Leave it where it was killed, preferably with a person watching it. As soon as possible, contact the nearest regional FWP office, the local sheriff's office, game warden's home or office, or call 1-800-TIPMONT. Report what happened and wait for instructions from a game warden.

Q: Is it legal to shoot marked animals?

A: It is legal to shoot big game animals that have radio collars, neck bands, or markers, but markers and radio collars must be returned to the nearest Montana FWP office.

Q: Do I need to be concerned about Chronic Wasting Disease?

A: There have been no confirmed cases of CWD in the wild in Montana and there is no evidence that the disease is transmissible to humans. However, if you are concerned wear protective gloves while field-dressing game. Minimize handling and don't eat the brain or spinal cord. Hunters or others observing animals acting unusually or appearing to be sick are advised not to harvest or consume those animals and are encouraged to report the location of the animals to FWP immediately using the telephone numbers provided on page 8.

Q: Can I use my general season special permit or license during the archery season?

A: Hunters who receive a special permit to hunt deer or elk during all or any portion of the GENERAL season (Oct. 27-Dec. 1), may archery hunt for the species and sex indicated on the permit or license during the ARCHERY season unless specifically prohibited in the hunting district regulations. See pages 37-76.

Q: Can someone shoot an animal for me if I am with them?

A: No. The person to whom the license is issued must shoot the animal. There are no exceptions to this under Montana's law.

Q: What does Montana offer for nongame and predator hunting opportunities?

A: Nongame wildlife and predators are unprotected by state law or regulation and can therefore be hunted in Montana year round without a license by both resident and nonresident hunters. A license is required only for nonresident trappers, who can take nongame wildlife and predators between October 16 and April 15 of the following year.

Predators are defined by state statute as coyote, weasel, skunk, and civet cat (spotted skunk). Nongame wildlife is defined as any wild animal not otherwise legally classified by statute or regulation in Montana. Examples of **Nongame Wildlife** species include badger, raccoon, red fox, hares, rabbits, ground squirrels, marmots, and tree squirrels.

Furbearers are protected species that may only be taken by residents with a valid trapping license during prescribed seasons. Furbearers are defined by state law as beaver, otter, muskrat, mink, marten, fisher, wolverine, bobcat, lynx, and swift fox. Furbearers can only be taken by trapping, except that bobcat and wolverine may also be hunted. The furbearer season is closed on lynx and swift fox.

Q: Why is FWP collecting Social Security numbers?

A: The requirement to collect SSN's on hunting, fishing, trapping and conservation licenses was passed by the 1999 Montana Legislature (SB76), to comply with the Federal Welfare Reform Law.

Helpful hints and information to plan your Montana hunting trip.

FWP WEBSITE—fwp.state.mt.us

- The FWP website offers a variety of information to help you plan you hunt. You'll find an interactive hunt planner for each big game species that includes maps, regulations, drawing quotas and harvest statistics. Links to road reports and weather service sites plus US Forest Service are also available.

HUNTER ACCESS

KNOW WHERE YOU ARE

- It is the hunter's responsibility to always know where he/she is, to know who owns the land (private, state, federal), and to know what restrictions apply. Always carry a map that clearly marks hunting district boundaries and travel restrictions. Maps may be obtained at most federal agencies such as Bureau of Land Management and Forest Service offices as well as some sporting goods dealers.

PRIVATE LAND

- Montana Law **requires** that hunters have the permission of the landowner, lessee, or their agent before hunting on private property, regardless of whether the land is posted or not. It is recommended that hunters receive written permission from the landowner or landowner's agent. Hunters should secure landowner permission well before applying for a special license/permit to hunt on these private lands.

Block Management Program

- The block management program is a cooperative effort between private landowners, Montana Fish, Wildlife & Parks, and hunters to provide public hunting on private lands. Over 8.5 million acres of land throughout the state are enrolled in the program, offering a variety of hunting opportunities. The dollars to administer the block management program come from nonresident, variably-priced outfitter sponsored licenses.

Preparing For Your Hunt

- Each region administers the block management areas (BMAs) for that portion of the state. Hunters wishing to learn more about specific BMA opportunities should contact the regional office in the area they wish to hunt, see page 8. Regional tabloids listing lands enrolled in the program will be available after August 15, which is also the earliest date for making BMA reservations.
- For general information about the block management program, contact the Field Services Division at 406-444-2602.

Access Montana

Access Montana was developed to maintain and improve hunting access to public (federal and state) lands that are currently inaccessible because they are completely surrounded by privately owned land. The mission of Access Montana is to reduce or eliminate the conflict that arises when hunters cross private lands in order to gain access to and legally utilize public lands. FWP works with landowners to develop access agreements that may offer compensation or other incentives, like materials for fencing, in exchange for providing hunting access to isolated public lands. FWP works cooperatively with landowners, hunters, and appropriate land managers to solve difficult access problems.

Trespass

- Montana Law states that lands can be closed to the public either by **posting the land** or through verbal communication by the landowner or his/her agent. If access has been previously granted, the landowner may revoke permission by personal communication at any time.
- **Posting the land** to deny entry to private land must consist of written notice on a post, structure, or natural object OR by painting a post, structure, or natural object with at least 50 square inches of fluorescent paint.

PUBLIC LAND

- FWP is working cooperatively with other agencies to improve signing of legally accessible public lands wherever possible. Access courtesy cards and copies of a map directory are available at all FWP offices.
- It is unlawful to hunt or take game animals on railroad right of ways.

Stream Access Law

- Big game hunting between the ordinary high water marks of streams and rivers is unlawful without landowner permission. Landowner permission must be obtained to hunt private lands adjacent to waterways.

Closed Areas

- **State Game Preserves and National Parks** are closed to hunting of big game animals. For hunting privileges on Federal Wildlife Refuges, inquire at the local refuge office.
- **Indian Reservations** are limited to Tribal members only for big game hunting privileges unless otherwise provided for by agreements between the State of Montana and a Tribal Government. For questions contact theTribal Government offices, see page 9.
- **Wildlife Management Areas** with big game winter range, unless otherwise posted, are closed to public entry from the day following the end of the general deer-elk season or December 1, whichever is later, to May 15 each year, as posted. EXCEPTIONS: Blackfoot-Clearwater WMA closes November 10; Kootenai Falls WMA is open year long; Porcupine (Gallatin), Dome Mtn, Bear Crk and Wall Crk WMAs open May 1.

State Land

- A State Lands Recreational Use License available from FWP license agents, **is required** for all recreational activities (including hunting and fishing) on state school trust land, see page 4. Pamphlets which provide information regarding the rules, regulations, and restrictions governing these activities are available from FWP license agents, FWP offices, and the Department of Natural Resources and Conservation, 1625 11th Avenue, Helena, MT 59620, 406-444-2074.
- On lands outside designated campgrounds there is a 2-day camping limit.
- Overnight (1 night) camping is allowed within 200 feet of a legal access point.
- Horses may not be kept on state land overnight.
- Travel is restricted to public roads or on designated roads only.
- Designated roads will be signed as "open" to vehicle use or the information as to which roads (two-track trails) are designated as open will be available at DNRC Area Offices. Motorized use of other roads and trails and all off-road use is prohibited.
- Game retrieval is by foot or horse only.
- No open fires are allowed. Contained mechanical heat sources are allowed.
- Firearms may not be discharged within 1/4 mile of an inhabited house without permission of the owner of the house.

OUTFITTERS AND GUIDES

- Outfitters and guides are licensed by the Department of Commerce. For information, verification, to file a complaint, or for a complete listing of licensed outfitters and guides call the Department of Commerce at 406-444-3738.
- Any outfitter utilizing federal lands or lands not held in fee title by the outfitter must be licensed by the Department of Commerce.
- It is illegal to hire an outfitter not licensed by the Department of Commerce.

Preparing For Your Hunt

THINGS TO BE AWARE OF

Transporting Game or Fish

- If you are transporting wildlife and fish (including live animals, sport-taken game, parts and/or products) between Montana and Canada OR between the US and any foreign country, whether for commerical or non-commercial purposes, you must complete a US Fish & Wildlife Service (USFWS) Declaration form (Form 3-177). Form 3-177 is also available at all US Customs Ports and on the USFWS web site at www.fws.gov. Additional federal permits may also be needed to import/export wildlife, depending on the species. For further information contact the USFWS Wildlife Inspector at 406-453-5790 or FAX 406-453-3657.

Transporting Horses and Mules in Montana

- The Montana Department of Livestock requires a veterinary inspection certificate and an import permit prior to entry into Montana. A brand inspection certificate is required for movement within Montana. For information call the Montana Department of Livestock at 406-444-2045.

Weed Control and Weed-Free Hay

- Montana requires visitors to use certified weed-free hay, grain, straw, mulch, cubes and pelletized feed on federal lands. Please contact offices of Montana FWP, US Forest Service, Bureau of Land Management, and the US Fish and Wildlife Service for supplier information. Contact the Montana Department of Agriculture at 406-444-5400 for information about the area where you will be hunting.
- Infestations of noxious weeds reduce the amount of available food for wildlife and livestock. As these infestations spread, range is reduced, and the land supports fewer animals. It is important to strictly follow the weed-free hay certification regulations.

Leave No Trace

- Plan ahead and prepare
- Travel and camp on durable surfaces
- Pack it in, Pack it out
- Properly dispose of human waste
- Leave what you find
- Minimize use of campfires

Licensing Requirements

HUNTING & FISHING LICENSES FOR LICENSE YEAR 3/1/02 THROUGH 2/28/03

Before purchasing or applying for a Montana license, you must determine whether you are a Resident or a Nonresident.

- If unsure of your residency status, contact a regional FWP office, see page 8, or FWP's Helena Enforcement office at 406-444-2452.
- To be a legal Montana resident and eligible to purchase Montana fishing, hunting, and trapping licenses you must:
  - have been physically living in Montana for at least 180 consecutive days (6 months) immediately prior to purchasing any resident license;
  - register your vehicle(s) in Montana;
  - be registered to vote in Montana if you're registered to vote at all;
  - not possess or have applied for any resident hunting, fishing, or trapping privileges in another state or country;
  - show a valid Montana Driver's License or a valid Montana Identification Card when purchasing a license;
  - file Montana state income tax returns as a resident (if you are required to file).
  - **nonresident minors** can hunt in Montana as a resident IF one of their parents is a legal resident of Montana.
- Once you have established your residency, you must continue to meet all these requirements and physically reside in Montana as your principal or primary place of abode for not less than 120 days per year (days need not be consecutive). Refer to MCA87-2-102 for complete definition.

Armed Forces

- A member of the regular armed forces of the United States, a member's dependent who resides in the member's Montana household, or a member of the armed forces of a foreign government attached to the regular armed forces of the United States is considered a resident if:
  - member was a resident of Montana under the provisions listed above at the time member entered the armed forces and continues to meet these residency criteria; or
  - member is currently stationed in and assigned to active duty in Montana, has resided in Montana for at least 30 days, and presents official assignment orders and a certificate of competency verifying successful completion of a hunter safety course in any state or province.

Resident and Nonresident Licensing Requirements

- You must have a current Montana wildlife conservation license before purchasing any hunting, fishing, or trapping license.
- You must provide your Social Security number along with the other information required for a Conservation License. This requirement applies to residents and nonresidents, including youth.
- It is unlawful to swear to or to affirm a false statement in order to obtain a resident hunting/fishing license.
- Only one license of any type may be purchased each year, unless specified otherwise (i.e., you may purchase more than one deer B License).

Licensing Requirements

- Youth under 14 years of age must be accompanied by a person having charge or custody of the child or under the supervision of a qualified firearms safety instructor or an adult who has been authorized by the parent or guardian when carrying or using in public any firearms for any reason.
- A resident or nonresident who is 12 years of age or older or who will turn 12 years old before or during the season for which the license is issued, is entitled to purchase a deer A, deer B, elk and/or black bear license prior to turning 12 years of age.
- Resident youth 14 years old who purchase a discounted general deer or elk license, may use the license throughout the season, even if they turn 15 years old during the season.
- All licenses and permits must be signed before they are valid.
- Licenses and permits must be carried on your person and hunters are prohibited from loaning or transferring their license to another person or using a license issued to another person.

Hunter Education for Firearm and Archery

- If you are 12-17 years of age, you must show proof of completing a hunter education program before purchasing any hunting license. Montana youth must provide a Montana-issued certificate. (New residents of Montana 12-17 years of age should check with their local FWP office to determine if their out-of-state hunter education certificate can be transferred to a Montana certificate.) Duplicate Montana certificates can be obtained from the FWP website or by contacting any FWP regional office or the FWP Helena headquarters.
- To receive a Montana-issued certificate of completion for the Hunter Education Program, a youth must be at least 11 years of age.
- If you are purchasing a Montana bow & arrow license, you must show proof of an NBEF Bowhunter Education Certificate or present any prior year's bow hunting/archery stamp, tag, permit, or license from any state or province.
- Duplicate Certificates of Completion for the Hunter Education and Bowhunter Education course may be obtained from the FWP website.

Black Bear Identification Test -- certificate required

- Hunters must take and pass a "black bear identification test" before purchasing a 2002 black bear hunting license. When purchasing a bear license, including "Sportsman's with Bear," hunters must present a certificate of completion to a license provider.
- This testing requirement was adopted by the FWP Commission to prevent mistaken identity killings of federally protected grizzly bears and to help Montana maintain its black bear hunting season.
- There are two ways to take the test:
  1. ON-LINE – Receive the training, take the test, and become immediately certified on-line at FWP's website at fwp.state.mt.us (click on the bear image to open the test); or,
  2. MAIL-IN – Pick up a mail-in test at any FWP office or license provider or request a mail-in test from FWP, Montana Fish, Wildlife & Parks -- Bear Test, 1420 East Sixth Avenue, PO Box 200701, Helena, MT 59620-0701.
     - License providers will NOT process the test or return them to FWP.
- For the Spring bear season, tests must be completed and certification presented by April 14.
- For the Fall bear season, tests must be completed and certification presented by August 31.

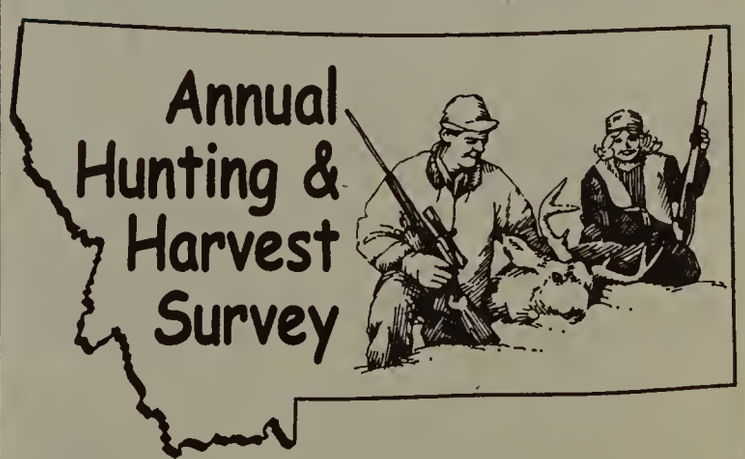
Hunting Access Enhancement Fee

- The 2001 Legislature created this new fee for those who purchase a Montana hunting license.
- The purpose is to help maintain and enhance hunting access to public and private lands statewide through programs like Access Montana and Block Management and other special hunting access projects.
- This is a one-time annual fee -- $2 for residents and $10 for nonresidents -- and will be charged at the time the hunter purchases his/her **first** hunting license (including upland game and migratory bird).

Two-Day Fishing License — Resident Only

- Residents will have the opportunity to buy a 2-day fishing license.
- The purpose is to encourage participation in the sport by providing reasonably priced opportunities for families and the occasional or new angler.
- License is valid for 2 consecutive days; cost is $5. A $4 conservation license is a prerequisite.

"MY DAUGHTER GOT HER FIRST DEER THIS YEAR!"



Montana Fish, Wildlife & Parks conducts telephone and mail surveys after the end of the hunting season each year. If contacted, you will be asked species hunted, number of days hunted, hunting districts hunted, etc. The information you provide during these surveys is very important and used for managing Montana's wildlife resources.

General Regulations

Montana is a member of the Wildlife Violator Compact. Violation of Montana laws or regulations leading to loss of privileges in Montana may also result in the loss of privileges in the other member states. For additional information contact the wildlife violator compact adminstrator at 406-444-2452.

GENERAL LICENSE INFORMATION

- Hunters must possess licenses and permits while in the field and produce them if requested by Enforcement personnel.
- Wildlife taken must be shown to Enforcement personnel for inspection when requested.
- Licenses and permits are nontransferrable and generally nonrefundable.
- It is unlawful for a person to carry or have physical control over a valid and unused hunting license or permit issued to another person while in any location that the species to be hunted may inhabit.

Party or Group Hunting

- Party hunting is not legal in Montana; each hunter must shoot **his/her** own animal.
- Hunters are prohibited from loaning or transferring **their** license to another person or using a license issued to another person. You cannot use your license to tag a big game animal that was killed by someone else.
- Refer to "party application", page 18.

Hunting Hours

- Authorized hunting hours for the taking of big game animals begin one-half hour before sunrise and end one-half hour after sunset each day of the hunting season. See official sunrise-sunset table on page 79 .

Clothing Color

- For all big game hunting, including mountain lion and black bear, any person hunting or accompanying hunters as an outfitter or guide must wear a minimum of 400 square inches of hunter orange (fluorescent) material above the waist visible at all times. Bowhunters should see page 15.

Littering

- A person convicted of littering while hunting, fishing, or camping shall forfeit his/her license or privileges to hunt, fish, trap, or camp within Montana for a period of one year.

Antler/Horn/Skull Possession

- Hunters may possess, transport, sell, or purchase naturally shed antlers, or the antlers with a skull or portion of a skull attached from a game animal that has died from natural causes and that has not been unlawfully or accidentally killed.
- Road-killed animals have not died from natural causes.
- The carcass or parts of protected or regulated species may not be salvaged or possessed.
- It is illegal to possess a sheep head picked up in the wild.

Traps

- Montana trappers are permitted to trap furbearing animals during designated seasons. Predatory, and some nongame animals may be trapped most of the year. Any person who finds a trap is prohibited from disturbing the trap or trapped animals.

Protected Species

- Gray wolves are present in Montana and are protected by state and federal law. To assist in wolf management, please report any wolf sighting or sign to the US Fish and Wildlife Service, 406-449-5225 X204 or 206, or FWP Helena Headquarters 406-444-2612.

Glandular Scents

- Natural or artificial glandular scents may be used by licensed hunters to attract game animals or game birds by spraying or pouring scent on the ground or other objects. Hunters may not create a scent station where the scent continues to be dispensed without the hunter's direct action, such as an automatic device which drips or otherwise continues to dispense scent. Scents may not be used to attract bears. No scents other than glandular may be used for attracting animals, but other scents may be used to mask human odor.

Method Of Taking

- Hunters are prohibited from hunting or taking any game animals by the aid or with the use of any set gun, jacklight or other artificial light, trap, snare, scent stations, bait or salt lick, nor may any such aforementioned device to entrap or entice game animals be used, made, or set.
- It is unlawful to discharge a firearm or other hunting implement at a simulated wildlife decoy in violation of any state statute or commission rule regulating the hunting of the wildlife being simulated MCA 87-3-109.

Two-way communication

- Two-way communication may not be used to: 1) hunt big game animals as defined in MCA 87-2-101(8) ("Hunt" means to "pursue, shoot, wound, kill, chase, lure, possess or capture.") OR 2) avoid game checking stations, FWP enforcement personnel, or to facilitate unlawful activity. When hunting mountain lions or bobcats with dogs, this rule applies when hounds are placed on tracks in a district open to lion or bobcat harvest. The rule shall not be interpreted to prohibit the possession or use of two-way radios for safety or other legitimate purposes, nor does it prohibit the use of radio tracking equipment to locate hounds when hunting mountain lions or bobcats.

Definition of "Motion Tracking Devices"

- It is unlawful for a person to possess, while hunting, any motion tracking device that is designed to track the motion of a game animal and relay information on the animal's movement to the hunter. This includes, but is not limited to:
  - remote operated camera or video devices
  - seismic devices
  - electronic trip wires, photo beam, or laser devices used to activate tracking or recording devices
  - thermal imaging devices
  - satellite and radio-telemetry tracking devices

General Regulations

- A radio-tracking collar attached to a dog that is used by a hunter engaged in lawful hunting activities is not considered a motion-tracking device or mechanism for the purposes of this regulation.

Night vision equipment

- Use of night vision equipment or electronically enhanced light gathering optics for locating or hunting game is prohibited.

Airplane Spotting

- Aircraft may not be used to locate big game animals for the purpose of: 1) hunting those animals within the same hunting day after a person has been airborne; 2) providing information to another person for the purpose of hunting those animals within the same hunting day after being airborne. The same **hunting day** in this context is defined as between the earliest and latest legal shooting hours.

Motorized Vehicle Laws

- On public lands, in most cases (including game retrieval) it is illegal to operate a motorized wheeled vehicle off legal routes. Do not operate an OHV cross-country! On National Wildlife Refuges, all off-road travel is prohibited. For further information, contact the appropriate land management agencies, see page 9. In all cases, when on private lands, hunters must first obtain permission from the landowner.
- Hunters may not use a motorized vehicle or aircraft to concentrate, drive, rally, stir-up, corral, or harass any wildlife except predators.
- Hunters are prohibited from shooting on, from, or across the right-of-way of a publicly maintained road which is open to vehicular traffic. The right-of-way includes the road, shoulders, berms, and borrow pits and generally extends from fenceline to fenceline along fenced roadways.
- Hunters are prohibited from shooting or attempting to shoot any game animal or upland game bird from any motorized vehicle (car, truck, boat, snowmobile, motorcycle, all terrain vehicle, airplane, etc.). Even if the vehicle is not moving, hunters must be off or out of the vehicle.

Enforcement of Area Closures on Public Land

- All federally approved travel plans on public lands in Montana are hereby adopted by the Fish, Wildlife & Park Commission. Motorized travel in restricted areas in violation of any current travel plan or land use plan is prohibited during the hunting season.

Operation of an Off Highway Vehicle (OHV) on Public Lands

- In order to operate an OHV on public lands, the OHV must be registered. For use on most public roads, an OHV must be registered as a motor vehicle and display a license plate. For off-road use on legal trails, OHVs must be registered and display an OHV decal.
- Residents must register their OHV at their County Treasurer's office. Nonresidents must register their OHV in their home state or purchase a temporary Off Highway Vehicle use permit from any Fish, Wildlife & Parks office. The permit is $5 and expires on December 31, 2002.
- Examples of an OHV include but are not limited to: motorcycles, quadricycles (also known as 4-wheelers), dune buggies, amphibious vehicles, air cushion vehicles, and any other means of land transportation deriving motive power from any source other than muscle or wind.

FIREARMS

- **Caliber:** There is no caliber limitation during the GENERAL big game hunting season (except as specified under shotgun) for the taking of big game animals in Montana. Match the caliber and firearm to the size of the animal hunted.
- The use of poisonous, explosive, or deleterious substances on or in any bullet or projectile is prohibited.
- **Shotgun:** Hunters are prohibited from shooting deer or elk with shotguns, except with lead loads of 0 buck or larger, or rifled slugs.
- **Restrictions for muzzleloader and traditional handgun areas only:**

  Muzzleloader: A muzzleloader must meet the following criteria:
  - It must not be capable of being loaded from the breech of the barrel.
  - It may not be loaded with any prepared paper or metallic cartridges.
  - It must be charged with black powder, pyrodex, or an equivalent.
  - It must be ignited by a percussion, flintlock, matchlock, or wheelock mechanism.
  - It must be a minimum of .45 caliber.
  - It may have no more than 2 barrels.
  - It must use lead projectiles only, no sabots.

  Traditional Handguns: A traditional handgun:
  - is not capable of being shoulder mounted;
  - has a barrel of less than 10 1/2 inches;
  - chambers only a straight wall cartridge, not originally developed for rifles.

ARCHERY

- Hunters may hunt with a bow and arrow during the GENERAL rifle season. However, they must conform to the rifle season regulations which includes drawing a special permit in special permit areas. This also includes wearing a minimum of 400 square inches of hunter orange (fluorescent) material above the waist. Crossbows may be used during the GENERAL rifle season.
- All legally described deer and elk hunting districts are open to archery hunting during the ARCHERY season. Exceptions are noted under the specific hunting district regulations.
- General deer A license holders may hunt deer as listed under the specific hunting district regulations.
- Deer B or landowner sponsored nonresident deer combination license holders may hunt during the ARCHERY season but are restricted to the district, sex, species, etc., listed on the license.
- Elk license holders may hunt elk as listed under the specific hunting district regulations.

General Regulations

- Hunters who receive a special permit to hunt deer or elk during all or any portion of the GENERAL season (Oct. 27-Dec. 1), may archery hunt for the species and sex indicated on the permit or license during the ARCHERY season unless specifically prohibited in the hunting district regulations. See pages 30-64.
- Any chemical or explosive device attached to an arrow to aid in the taking of wildlife is prohibited during rifle or ARHCERY season.
- A bow and arrow license, plus the proper hunting license, is required of all hunters during the ARCHERY season.
- **Purchasing a Montana bow & arrow license:**
- All bowhunters MUST:
  - Provide a copy of an NBEF Bowhunter Education Certificate OR
  - Provide any **prior year's** bowhunting/archery stamp, tag, permit, or license from any state or province. If you cannot produce this license, you can sign an affidavit stating that you previously purchased such a license from any state or province. This affidavit then entitles you to purchase a duplicate license, which will allow you to purchase a Montana bow and arrow license
  - All bowhunters 12-17 years of age must show proof of completing a hunter education program before purchasing any hunting license. See page 12.

Hunter Orange Requirement

- Bowhunters pursuing moose, sheep, goat, black bear, and/or mountain lion must wear a minimum of 400 square inches of hunter orange (flourescent) above the waist.
- Any person hunting or accompanying hunters as an outfitter or guide must wear a minimum of 400 square inches of hunter orange (fluorescent) material above the waist visible at all times.
- Bowhunters pursuing deer, elk, and/or antelope during the ARCHERY season are not required to meet the hunter orange clothing requirements.

Archery Equipment

It shall be illegal to possess, while hunting big game during any ARCHERY season, archery equipment that does not meet the following criteria:

- Hunting Bow - A hunting bow for big game shall be a longbow, flatbow, recurve bow, compound bow, or any combination of these designs meeting the following requirements and restrictions:
  - The bow must be a device for launching an arrow, which derives its propulsive energy solely from the bending and recovery of two limbs (includes bows with split limbs).
  - The bow must be hand drawn by a single and direct uninterrupted pulling action of the shooter. The bowstring must be moved from brace height to the full draw position by the muscle power of the shooter's body. The energy used to propel the arrow shall not be derived from any other source such as hydraulic, pneumatic, mechancial, or similar devices. These limitations shall not exclude the mechanical leverage advantage provided by eccentric wheels or cams so long as the available energy stored in the bent limbs of the bow is the sole result of a single, continuous, and direct pulling effort by the shooter.
  - The bow must be hand-held. One hand shall hold the bow and the other hand draw the bowstring. The bowstring must be moved and/or held at all points in the draw cycle entirely by muscle power of the shooter until release. The bowstring must be released as a direct and conscious action of the shooter either relaxing the tension of the fingers or triggering the release action of a hand-held release aid. Exception: Physically disabled bowhunters shall be exempted from the requirement of holding or shooting the bow with their hands.
  - The bow shall be no shorter than 28 inches.
  - The nominal percent of let-off for hunting bows shall be a maximum of 80 percent. It is recognized that variations in draw length and/or draw weight can affect the percent of let-off on compound bows. For these reasons minor variations in let-off are acceptable.
  - The following shall not be considered a hunting bow:
    - A crossbow. Crossbows may be used during the GENERAL (rifle) seasons.
    - Any device with a gun-type stock or incorporating any device or mechanism that holds the bowstring at partial or full draw without the shooter's muscle power.
    - Any bow for which a portion of the bow's riser (handle) or any track, trough, channel, or other device that attaches directly to the bow's riser contacts, supports, and/or guides the arrow from a point rearward of the bow's brace height. This is not intended to restrict the use of standard overdraw systems.
- Arrow - an arrow shall be a projectile at least 20 inches in overall length. The length of the arrow shall be measured from the rearward point of the nock to the tip of the broadhead.
  - Fletching shall be attached to the aft end.
  - A broadhead shall be mounted on the fore end.
  - The arrow shall weigh no less than 300 grains with the broadhead attached.
  - Arrows must have broadheads with at least two cutting edges. The broadhead must be at least 7/8 inches at the widest point, and weigh no less than 70 grains.

Exclusions: The following archery equipment is PROHIBITED during the archery season:

- Electronic or battery-powered devices attached to a hunting bow.
- A bow sight or arrow which uses artificial light, luminous chemicals such as tritium or electronics.

General Regulations

The following archery equipment is PROHIBITED during any season:

- Any chemical or explosive device attached to an arrow to aid in the taking of wildlife.

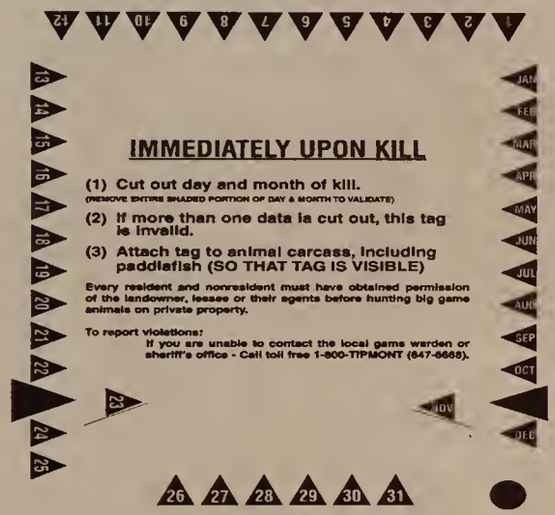
Modified Archer's Permit

- The "Modified Archer's Permit" allows a person with a disability to use archery tackle that supports the bow, and draws, holds, and releases the string to accommodate the individual disability (arrows are not exempt, and would still need to meet current requirements for the archery season). The person is required to meet eligibility criteria established by FWP. Contact FWP at 406-444-2535 for more information or to obtain an application.

PROCEDURES TO FOLLOW UPON HARVESTING AN ANIMAL

License Validation and Tagging

- IMMEDIATELY after harvesting a game animal, hunters must cut out the proper month and day of the harvest from the appropriate license and attach it to the animal in a secure and visible manner.



IMMEDIATELY UPON KILL
(1) Cut out day and month of kill.
(REMOVE ENTIRE SHADED PORTION OF DAY & MONTH TO VALIDATE)
(2) If more than one data is cut out, this tag is invalid.
(3) Attach tag to animal carcass, including paddlefish (SO THAT TAG IS VISIBLE)
Every resident and nonresident must have obtained permission of the landowner, lessee or their agents before hunting big game animals on private property.
To report violations:

- To properly validate a license, locate the appropriate month and day the animal was killed and completely cut away (notch out) the month and day designations. The license example shown has been properly validated for an animal taken on November 23. Be careful! The correct and appropriate month and day designations must be removed completely from the license. Removing more than one month or one day designation invalidates the license. It is recommended that black electricians tape be used to secure the license to the animal's leg or antlers.
- The properly validated license/tag shall remain with the meat until consumed (including cold storage). If quartered, the license/tag should remain with the carcass or largest portion of the carcass. See black bear regulations or mountain lion regulations for proper tagging of those species.

Evidence of Game Animal's Sex

An important and proven wildlife management technique is the ability to adjust, through regulated harvest, the ratio of male to female animals within a population. This management strategy is the primary solution to issues involving population health, vitality, and growth as well as issues involving increasing or decreasing specific populations for such reasons as landowner tolerance, hunter opportunity, range and forage preservation, and other critical management principles.

- Regulations requiring persons to provide evidence of sex of the harvested animal in a specific fashion are written so that department personnel can determine, under field conditions, whether a person is in compliance with the overall restrictions effecting harvest regulations. These are:
  - It is illegal to possess or transport the carcass of any big game animal unless evidence of the animal's sex and species remains naturally attached to its carcass or a portion of the carcass.
  - In most cases, the easiest way to meet this requirement is to leave the animal's head attached to the carcass. However, if the animal's head is removed, including quartered, boned-out or skinned animals, some other evidence of sex must remain naturally attached to the carcass or a portion of it.
- The following are considered lawful evidence of sex for horned or antlered game animals:
  - Male: head with the horns or antlers naturally attached, penis, testicles, or scrotum.
  - Female: head or udder (mammaries).
- For specific requirements for black bear and mountain lion, refer to the current Black Bear and Mountain Lion Hunting Regulations.
- Evidence of an animal's sex and species must be retained until the animal's meat is processed (cut and wrapped) or until a bear or mountain lion is checked by a department employee or delivered to a taxidermist.
- To attempt to include every imaginable scenario of how a person could dress and transport a game animal, and provide specific requirements that would cover every contingency, is not possible. If you have questions on how to apply the regulations in your particular situation, please contact your local game warden or Regional FWP Enforcement Office.

IT IS UNLAWFUL TO:

- Interfere with or hinder the lawful taking of a game animal.
- Kill more than one game animal per license (overlimit).
- Ship, possess, take out of state unlawfully killed game, game birds, furbearers, and fish.
- Possess firearms with silencers while afield.
- Harass or chase game animals with vehicle.
- Use recorded or amplified game call.
- Hunt, fish, or trap while license is suspended or revoked.
- Purchase more than one license or special permit per species, per license year except with Commission approval.

General Regulations

- Alter, transfer, or loan a license to another.
- Possess hunting license or permit of another.
- Swear or affirm to any false statement when obtaining licenses or permits.
- Solicit, command, or encourage others to commit violations.
- Make a false report to law enforcement authorities.
- Act as an outfitter or guide without being licensed to do so.
- Sponsor contests based on size of game animals.

AFTER THE HUNT

Kill Site Verification

- As a condition of hunting in Montana, persons may be required to return to the kill site if requested to do so by any department employee.

Transporting Big Game

- Properly tagged animals that comply with the "Evidence of Sex Requirements" and that were lawfully taken by the license holder may be transported by an individual other than the license holder. All shippers of fish, game or non-game birds, game animals or predator animals, or parts thereof are required to label all packages offered for shipment by parcel post or common carrier (airlines or UPS, etc.). The label should be securely attached to the address of the package and shall plainly indicate the names and addresses of the consignor and consignee and the complete contents of the package (87-3-114, MCA).
- It is a violation of the Federal Lacy Act to transport an illegally taken game animal across state boundaries. Federal Lacy Act violations could result in a criminal penalty of $20,000 and 5 years in prison.

Checking Stations

- All hunters and anglers are required by law to stop as directed at all designated check stations on their way to and from hunting and fishing areas, even if they have no game or fish to be checked.

Waste of Game

- Hunters, or persons in possession of a game animal or game animal parts, are prohibited from wasting or rendering unfit for human consumption, any part of a game animal, game bird, or game fish that is defined as "suitable for food." For big game animals excluding mountain lions, all of the four quarters above the hock, including loin and backstrap are considered suitable for food.
- A person harvesting a black bear or mountain lion is prohibited from abandoning the head or hide in the field.

Restitution for Illegally Taken Wildlife

- Montana law orders that, "In addition to other penalties provided by law, a person convicted or forfeiting bond or bail on a charge of the purposeful or knowing illegal killing, taking, or possession of a trophy animal listed in this section shall reimburse the state for each trophy animal..." The law goes on to set the amount for restitution for each animal under MCA 87-1-115 as:

Bighorn Sheep:	$30,000
Elk:	$ 8,000
Antlered Deer:	$ 8,000
Moose:	$ 6,000
Mountain Goat:	$ 6,000
Pronghorn Antelope:	$ 2,000

- The law specifically outlines minimum standards for a trophy under this regulation, but authorizes the Fish, Wildlife and Parks Commission to adopt more specific criteria. The following proposal for specific criteria was brought before the Commission and was accepted for tentative consideration in November 1999, and approved as proposed in February 2000.
- For the purposes of assessing restitution for illegally taken wildlife under Montana Code 87-1-115, the following are considered "trophy" animals:
  - Bighorn sheep with at least one horn equal to or greater than three-fourth curl as defined in the annual regulations
  - Moose having a widest outside spread, tip to tip, of at least 30 inches
  - Any mountain goat
  - Antelope with at least one horn greater than 14 inches in length, as measured along the outside curve from base to tip
  - Elk (must meet all three criteria):
    1. At least six points on one antler, and
    2. A main beam length on each antler of at least 43 inches, and
    3. An inside spread of at least 36 inches.
  - Mule Deer (must meet all three criteria):
    1. At least four points on one antler, excluding brow tine, and
    2. A main beam length on each side of at least 21 inches, and
    3. An inside spread of at least 20 inches.
  - Whitetail Deer (must meet all three criteria):
    1. At least four points on one antler, excluding brow tine, and
    2. A main beam length on each side of at least 20 inches, and
    3. An inside spread of at least 16 inches.
- A "point" as defined in these regulations is at least four inches long for elk and at least one inch long for deer, measured from base to tip. Boone and Crockett measuring procedures or standards are used for criteria measurement. The official measurements for the purpose of this regulation are those that are taken at the time of confiscation or seizure of the trophy.

Remedial Hunter Education Program

- A person who is sentenced by the court to complete a remedial hunter education course shall pay the costs directly attributable to the person's participation in the program. A participant whose hunting, fishing, or trapping license has been revolked shall successfully complete the program before license privileges may be reinstated.

Special License/Permit Drawings

GENERAL REGULATIONS & INFORMATION

Deadline Date

- Applications must by postmarked on or before **June 1**. Postmark must be an official US Post Office mark. A postage meter postmark cannot be accepted.
- A youth who is 12 years of age or older OR who will turn 12 before or during the season for which the license is issued may apply for special licenses and permits, but must show proof of completing a hunter education program when applying.

Nonresident Limitations

- By state law, nonresidents are limited to 10 percent of a district quota.
- Nonresident holders of an outfitter-sponsored combination license are reminded that ALL big game hunting with their Combination License must be done with a licensed outfitter.
- Nonresidents must purchase a big game elk combination license before applying for a special elk permit or A-7 elk license. See page 4.

Resident Limitations

- Residents must purchase a general elk license before applying for a special elk permit or A-7 elk license.

Party Applications

- For some special drawings, applicants may apply as a "party." However, each hunter must possess his/her own license and shoot his/her own animal. Either **everyone** in the party is successful in getting a license or **everyone** is unsuccessful. A party of individuals is assigned one random number in the computer. If that number is drawn, all members will receive a permit/license.
- The success rate for applying as a party versus as an individual is generally the same. However, if a resident applies with a nonresident in a party, the whole party will be considered "nonresident" because of the 10 percent limitation on nonresident licenses referred to under Nonresident Limitations.
- The maximum number of applicants in a party depends on the drawing:
  - Elk permits (specified districts only): 2 members.
  - Antelope licenses (all districts): Up to 5 members.
  - Nonresident combination license: Up to 5 members.

Fees and Refunds

- For each license or permit applied for, there is a $3 nonrefundable drawing fee, plus the permit or license fee. This drawing fee covers the cost of printing, processing, keypunching, etc.. The permit/license fee is the actual cost of the permit or license you're applying for as set by state law.
- The refund policy for all Montana state agencies allows for issuing refunds for amounts of **$5 and over**. Therefore, the amount of your refund depends on what you apply for on one application. For example, if you apply for only an elk permit and are unsuccessful, your potential refund would be $3 (you paid $3 nonrefundable drawing fee and $3 permit fee); but, because of the $5 minimum, you wouldn't be issued a refund. However, if you apply for a deer B license and an elk permit and are unsuccessful, your potential refund would be $11 (for residents) ($8 for the deer B and $3 for the elk), and, therefore, an $11 refund would be issued.

Drawing Process - 1st, 2nd, & 3rd Choices

- FWP's computerized drawings are a completely random process. Each application is assigned a randomly selected number by the computer as it's keypunched. This number then becomes the only connection between the drawing and the applicant. In other words, drawings are done by selecting numbers, not applicant names.
- Drawings are conducted species by species, hunting district by hunting district. For example, when conducting the elk drawings, we start with the first elk hunting district: 100-00. If the quota is 10, the computer starts selecting applicants who applied for this district as their FIRST CHOICE. If there are at least 10 first choice applicants, the drawing will never consider second choice applicants. When that district quota has been filled, we go to the next hunting district and complete the same process until all district quotas have been filled with first-choice applicants. If there are not enough first-choice applicants to fill a quota, the computer starts selecting second choice, and so on. **However, you will never draw your second choice UNLESS everyone who applied for that district as their first choice was successful.**

Results Of Special Drawings - dates approximate

Mid-April—Nonresident combination
Third week of June—Moose, sheep, goat
Third week of August—Deer, elk, & antelope
Please call our information hotline after the approximate due date for results of the special draw at **1-900-225-5397**. The line will be open Monday through Friday, 8 am to 5 pm Mountain Standard Time. A fee of $1.50 per minute will be charged, and callers must be at least 18 years old. Or, find your results on our web site at **fwp.state.mt.us**

Refunds Mailed To Unsuccessful Applicants - dates approximate

Final Week April—Nonresident combination
Final Week June—Moose, sheep, goat
Final Week August—Deer, elk, antelope

Call Special Licensing at 406-444-2950:

- If you do not receive your license or refund within a reasonable period of time from refund dates.
  Note: If an applicant is unsuccessful in the drawings, license fee will be refunded unless there is a valid obligation owed to the State of Montana or if the refund is less than $5. If a valid obligation exists the refund may be retained by the State Auditor and applied against that amount.
- For information on special drawings for big game hunting.
- **For Surplus license** information and applications (available at the end of August).

Special License/Permit Drawings

DEER AND ELK LICENSES

- Most of the following licenses are obtained through FWP special drawings.
- Some big game species licenses and permits are available only through a special drawing. Applications are available at all FWP offices and license agents throughout the state. Completed applications **must be returned to the address listed on the application form.**
- Because some licenses and permits are valid only in a portion or portions of a hunting district, hunters should carefully note the district choice for which they are applying. A copy of the "portion of district" legal descriptions is available by mail from the Helena Headquarters, Wildlife Division, PO Box 200701, Helena, MT 59620-0701.
- Hunters who receive a special permit to hunt deer or elk during all or any portion of the general season (Oct. 27-Dec. 1), may archery hunt for the species and sex indicated on the permit or license during the ARCHERY season unless specifically prohibited in the hunting district regulations, see pages 37-76.

DEER LICENSE AND PERMIT OPPORTUNITIES

- Nonresidents must hold a big game elk/deer OR deer combination license to apply for a special deer permit.
- Nonresident holders of a landowner-sponsored deer combination license are reminded that the license entitles them to hunt ALL deer (including B licenses) only on the deeded lands of the sponsoring landowner. This does not include leased or public land. The license is valid statewide for fishing and upland game birds.
- Nonresident holders of a landowner-sponsored deer combination license may apply for a special deer permit or deer B license ONLY in the hunting district where they are authorized to hunt deer.
- Residents must hold a general deer A license before using a special deer permit awarded through the special drawings.

Special Deer B Licenses

- A "deer B" license is generally an antlerless license for either mule deer or whitetail depending upon the hunting district. It allows you to take a second deer, assuming you also have a deer A license. There is no particular order in which the A and B licenses must be purchased or used.

Single Region Antlerless Whitetail Deer B Licenses

- Only one single-region antlerless whitetail deer B license may be purchased per year. These can be in addition to other deer B licenses purchased (through special drawings, surplus, etc.). Licenses are valid for one region only and hunter must designate region of choice at time of purchase. Licenses are available, beginning in August, from all FWP offices and from license agents in the areas licenses are valid.
- Licenses are valid October 27 - December 1, with exceptions noted below. Licenses are also valid during the archery season, but the license holder is restricted to the region, sex, species, and any special restrictions listed on the license.

Residents

- Licenses are valid as follows:

Whitetail:

- Region 1: HD 132 - private land only - outside State Forest & National Forest Boundaries and HD 170
- Region 3: All 300 series districts, except Canyon Ferry WMA
- Region 4: All 400 series districts, except hunting district 455
- Region 6: All 600 series districts
- Region 7: All 700 series districts

Mule:

- Region 7: All 700 series districts, except C.M. Russell National Wildlife Refuge.

Nonresidents

- Licenses are valid as follows:

Whitetail:

- Region 1: HD 132 - private land only - outside State Forest & National Forest Boundaries and HD 170
- Region 7: All 700 series districts

Mule:

- Region 7: All 700 series districts, except C.M. Russell National Wildlife Refuge. MUST be applied for through special drawings by June 1. See HD 797, page 72.

- All other nonresident antlerless deer licenses MUST be applied for through special drawings by June 1.

Landowner Preference

- Montana landowners (both resident and nonresident) who qualify may receive preference in the special license/permit drawings. Landowners may designate their preference to a member of their immediate family (blood or marriage related) or an employed ranch manager (paid employee who has state, federal, or FICA taxes withheld from pay). Only ONE person may use designated preference in a partnership or corporation.
- To qualify for preference in the DEER B, DEER PERMIT, and/or ANTELOPE drawing:

- The individual must be owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. If the license is valid for a portion of the hunting district only, landowner must own land WITHIN that portion; and,
  - Land must be used primarily for agricultural purposes.
  - Nonresidents owning land in Montana should contact our Helena FWP office at 406-444-2950 for details on how to apply.

Special License/Permit Drawings

License and Permit Special Drawing Codes

- In order to make license and permit types consistent between hunting districts and regions, FWP has changed some of the 5-digit codes for the various big game species. The tables below depict some of the most commonly used codes and the description of each of those particular opportunity types, such as 100-00, 321-50, etc.
- Deer Codes and Description
  00 — B License Antlerless Deer
  20 — B License Either-Sex Deer
  40 — Permit Unlimited Buck
  50 — Permit Limited Buck
  60 — Permit Antlerless Deer
- Elk Codes and Description
  00 — Permit Antlerless Elk
  10 — Permit B.T. Bull or Antlerless Elk
  20 — Permit Either-Sex Elk
  40 — Permit Antlered Bull Elk
  70 — Special A7 License Antlerless Elk

Special Deer Permits

- Hunters who receive a special deer permit must use it with a current deer license (a deer permit does not allow you to take a second deer). Hunting districts (including season type) with special deer permits are: 130-50, 202-50; 204-40; 210-50; 240-40; 250-40; 260-60; 260-61; 261-50; 270-50; 281-40; 291-50; 292-40; 300-50; 312-50; 318-40; 324-50; 335-40; 339-40; 343-40; 380-40; 391-40; 392-40; 441-50; 455-70; 510-40; 530-50; 652-40.
- Hunters who receive a special deer permit valid for taking an antlered buck mule deer (with their deer A license) are restricted to taking an antlered buck mule deer only in the district or portion of district specified on the permit. They may not hunt antlered buck mule deer anywhere else in Montana. This applies to all special deer permit areas, whether limited or unlimited, for antlered buck mule deer.

ELK LICENSE AND PERMIT OPPORTUNITIES

- Residents must hold a general elk license before applying for a special elk permit or A-7 elk license.
- Nonresidents must hold a big game elk/deer OR big game elk combination license to apply for a special elk permit or A-7 elk license.

A-7 Elk License

- The following hunting districts (including season type) offer A-7 elk licenses: 204-70; 204-71; 240-70; 240-71; 250-70; 261-70; 261-71; 270-70; 270-71; 282-70; 285-70; 298-70; 299-70; 300-70; 302-70; 319-70; 321-70; 328-70; 329-70; 331-70; 332-70; 333-70; 335-70; 340-70; 341-70; 343-70; 370-70; 380-70; 401-70; 401-71; 520-70.
- Unlimited A-7 (antlerless) elk licenses valid on private land only. Valid in HD's 320, 330, 360,362 only. Not valid in late seasons 360-05, 362-02 and 362-03. Apply at FWP Bozeman Headquarters prior to Sept. 7. Landowner permission slip required to obtain A-7 license.
- Hunters who receive an A-7 elk license:
  - may not hold both a general elk license and a special A-7 elk license. If successful in drawing an A-7 license, hunters will be sent a notice informing them they must return their general elk license prior to the beginning of the elk archery season. Failure to do this will forfeit the A-7 license. Those A-7 licenses not exchanged will be offered to applicants who were unsuccessful in the original drawing.
  - must hunt only antlerless elk and must confine their elk hunting ONLY to the district for which their A-7 license is valid during both the GENERAL and ARCHERY seasons.
  - cannot hunt bulls or antlerless elk anywhere else in the state during the 2002 hunting season.
  - should note earlier or later opening and closing date.

Landowner Preference

- To qualify for preference in the ELK PERMIT and/or A-7 ELK LICENSE drawing:
  - The individual must own or be contracting to purchase at least 640 acres of contiguous land regularly used by elk for one or more seasonal activities. Unusual or infrequent sightings of one or a few elk is not sufficient qualification for landowner preference. If permit is valid for a portion of the hunting district only, landowner must own land WITHIN that portion.
- Nonresidents owning land in Montana should contact our Helena FWP office at 406-444-2950 for details on how to apply.

Special Youth Hunts

- **General Season:** Youth 12-14 years of age may hunt elk as specified in the general season dates for a legally defined bull or antlerless elk in the following hunting districts: 100,104,121, 122, 123, 124, 141, 200, 201, 202, 203, 210, 211, 212, 213, 214, 215, 216, 280, 281, 283, 291, 292, 293, 300, 301, 302, 310, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 335, 340, 341, 343, 350, 360, 361, 362, 370, 391, 392, 393, 413, 415, 416, 418, 421, 423, 432, 446, 448, 449, 452, 454, 520 (portion), 540, 560, and 580 (portion).
- **Elk Special Permit:** permits will be available for 310-14, 311-20, 311-21, 313-12, 314-24.
  To qualify:
  - applicant must be 12-14 years of age.
  - applicant must show proof of completing a hunter education program.
  - applicant must be accompanied by an adult and/or guardian who is at least 21 years of age.

Special License/Permit Drawings

Special Elk Permits

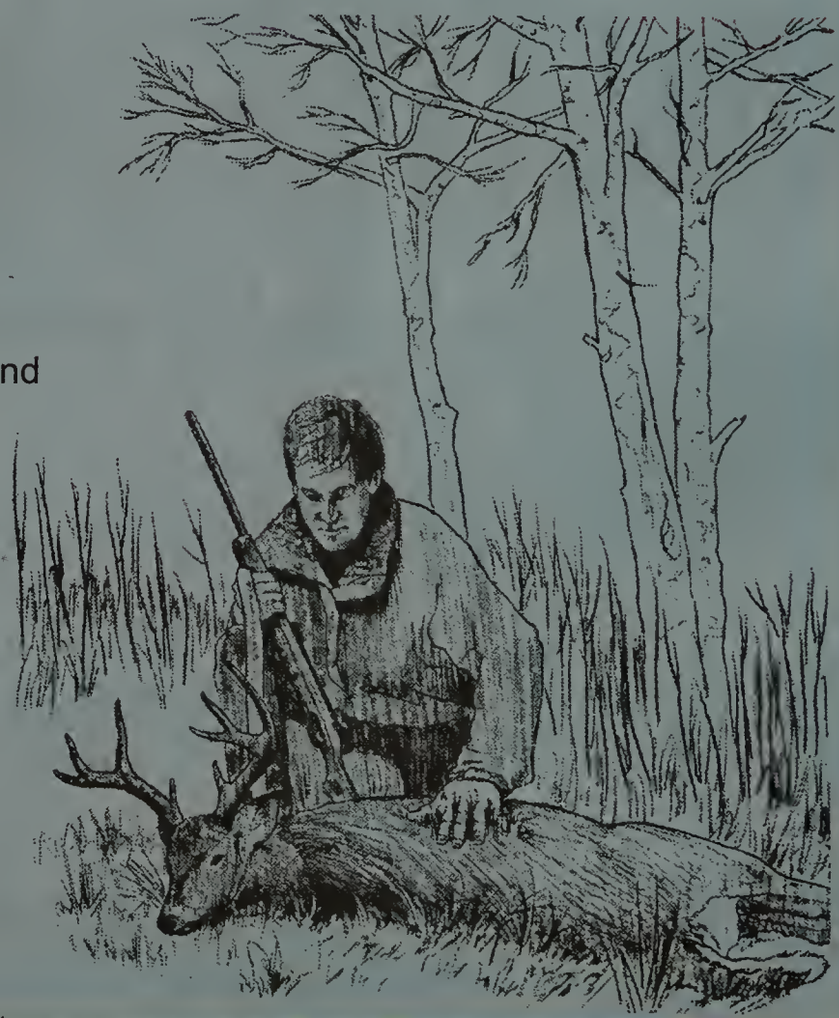
- Hunters who receive a special permit to hunt antlerless elk during all or any portion of the regular season (Oct. 27-Dec. 1) are restricted to taking only an ANTLERLESS elk in the district or portion of a district for which the permit is valid (whether during the GENERAL or ARCHERY season). Permit holders are entitled to hunt elk, as specified in the 2002 Big Game Hunting Regulations, in all other elk hunting districts OR, if the permit is valid for a portion of the district only, in all other portions of that hunting district (except those districts or portions of district restricted to "hunting by permit only"). This restriction also applies if a permit is valid for only a portion of the regular season (for example, October 27-November 3 or Oct. 31-Dec. 1).

Special Youth Hunts Page Change

General season and permit information is located on page 20.

Be A Montana Hunter

- Follow the rules of safe gun handling.
- Be proficient in the use of your equipment.
- Know and obey laws and regulations.
- Develop hunting skills and knowledge.
- Develop a personal code of conduct.
- Respect the wildlife you hunt and the land it inhabits.
- Respect other hunters and the rights of non-hunters and landowners.
- Relax and enjoy your hunt, whether you get your game or not.
- Get involved in conserving wildlife and hunting.
- Be a role model; share your skill and knowledge with others.



Licenses/Permits for Hunters With a Disability

General Conservation License-Residents Only

- Residents certified as permanently and substantially disabled, as designated by FWP rules, must apply annually for this license which authorizes fishing, hunting of upland game birds, excluding turkey, and the purchase of deer A and elk licenses at one-half price.
- Application for a Resident Person With A Disability Conservation License is available at all Fish, Wildlife & Parks Regional Headquarters and the Helena Headquarters.

Modified Archer's Permit

- The "Modified Archer's Permit" allows a person with a disability to use archery tackle that supports the bow, and draws, holds, and releases the string to accommodate the individual disability (arrows are not exempt, and would still need to meet current requirements for the archery season). The person is required to meet eligibility criteria established by FWP. Contact FWP at 406-444-2535 for more information or to obtain an application.

Permit to Hunt From A Vehicle

- Application for a resident or nonresident Permit To Hunt From a Vehicle is available at all Regional Fish, Wildlife & Parks Headquarters and the Helena Headquarters.

Deer

- Deer B licenses will be available for 630-20. Applicant must have a "resident person with a disability conservation license." See License Available chart page 4.

Elk

- Permits will be available for 310-14, 311-20, 313-12. Applicant must possess a "resident person with a disability conservation license." See page 4-5.
- Permits will be available for 212-03 and 314-10. Applicant must have a permit to hunt from a vehicle.

Antelope

- Legislation established a statewide total of 25 special antelope licenses to be issued through a special drawing process to applicants who are permanently physically disabled and nonambulatory as defined by ARM rule 12.3.106. These licenses are available only in those antelope hunting districts that have a quota of 50 or more licenses.
- Applicants must apply on department provided forms available at all Regional Fish, Wildlife & Parks Headquarters and the Helena Headquarters.
- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- Licenses awarded to successful applicants will be subject to all specifications on the license.
- Antelope may be harvested only in the specific hunting district in which the license is valid.

Visually Challenged Individuals—406-444-4040

- A copy of these regulations, excluding the front and back covers and the maps, is available in an alternative format upon request. Call for further details.

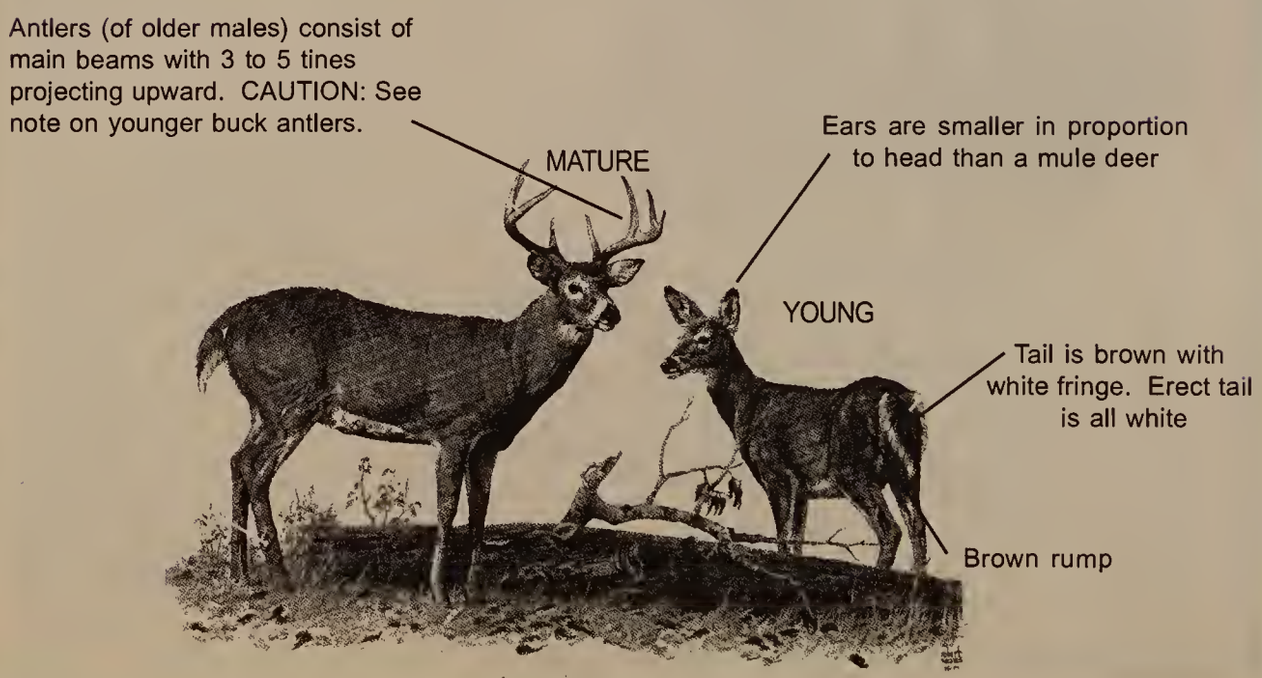
CAUTION: Antlers on both witetail and mule deer young bucks may look similar.

CHARACTERISTICS OF A WHITE-TAILED DEER



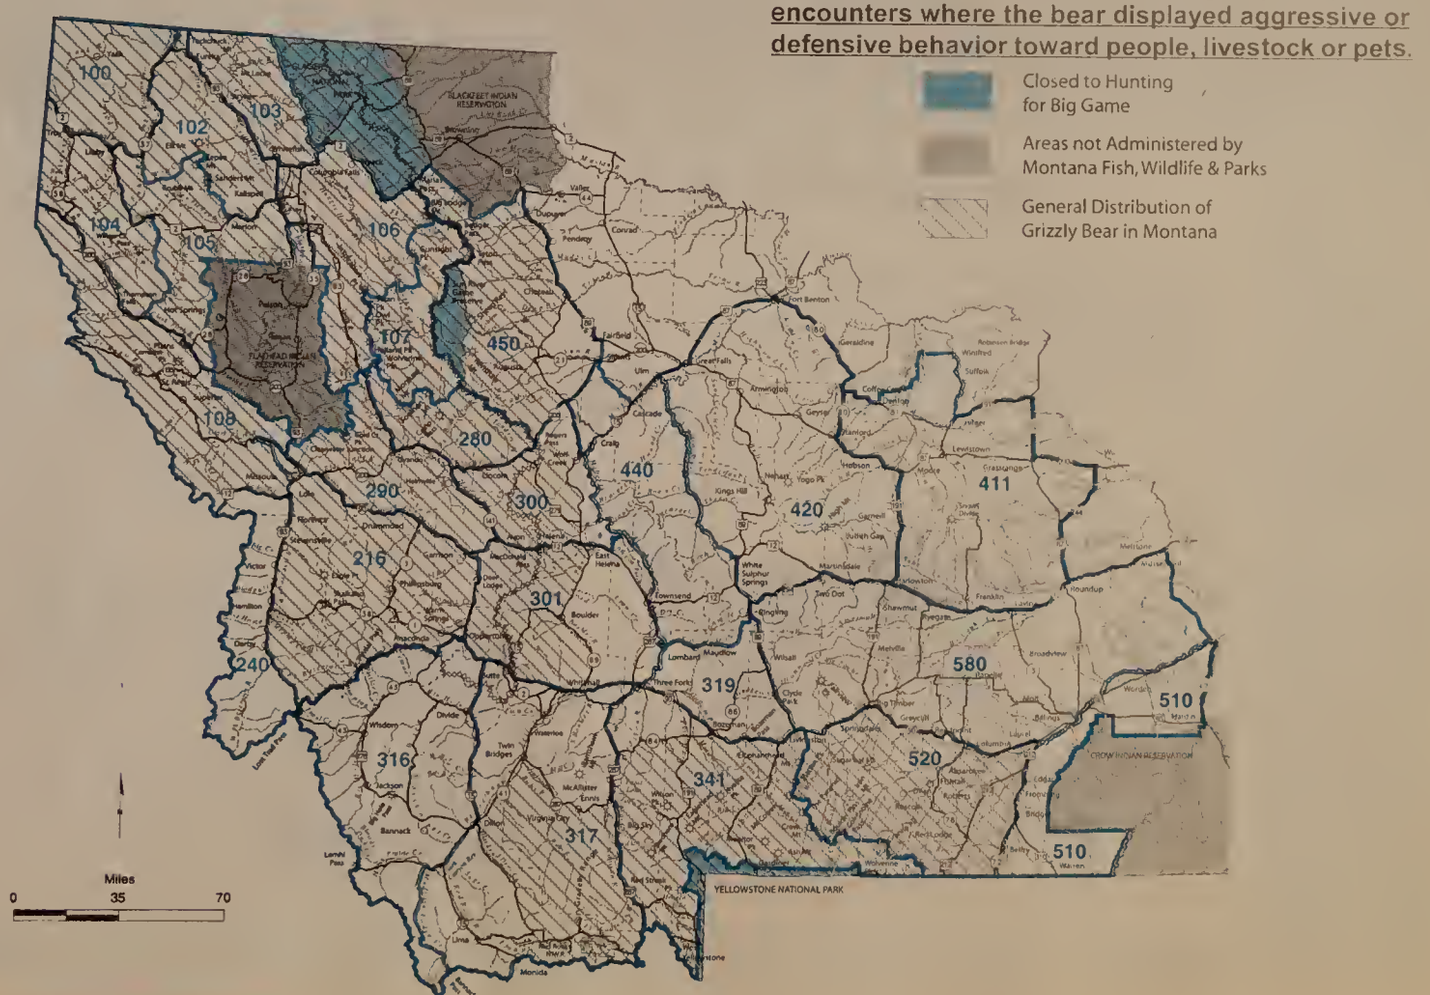
Antlers (of older males) consist of main beams with 3 to 5 tines projecting upward. CAUTION: See note on younger buck antlers.
MATURE
Ears are smaller in proportion to head than a mule deer
YOUNG
Tail is brown with white fringe. Erect tail is all white
Brown rump

Think Grizzly and Act Defensively

Montana is Grizzly Bear Country

"Think grizzly and act defensively" by taking the necessary precautions to avoid a bear encounter

- If you hunt alone, let someone know your detailed plans and have a way to periodically check in. Consider hunting with a partner.
- Hunting partners should share details of their hunt plans and have a check-in or communication system.
- Carry bear pepper spray and know how to use it.
- After a kill, get the animal out of the woods as soon as possible. The longer a carcass remains lying on the gound, hung up in hunting camp, or in the back of a truck, the more likely it is to be discovered by a grizzly. Be aware that some grizzly bears have learned that a rifle shot means a gut pile or animal carcass.
- Carcasses left in the mountains overnight should be covered and made to be visible from a distance. Locate an observation point and clear the brush in that direction. Mark it with a piece of clothing or flagging. Drag the gut pile away from the carcass and cover it with brush. Before leaving, walk to the observation point and memorize the site.
- Next morning, approach the downed animal carefully. Yell or whistle repeatedly. With binoculars, study the scene from the observation point and scan the area for movement. Grizzly bears often drag the carcass a short distance before covering it under a pile of dirt and debris.
- If a grizzly bear is at the site and refuses to leave or the meat has been cached and is not salvageable, report the incident to FWP. Hunters who have lost an animal to a grizzly may be eligible for another license.
- Never push a grizzly exhibiting aggressive behavior off of a carcass.
- If you live in grizzly country, it is best not to hang carcasses behind the house or in the garage for extended periods. Big game carcasses stored outside should be hung from a stout 15-foot pole at least 25 to 30 feet off the ground. The elk or deer should be suspended from the center of the pole and well above a bear's reach. Grizzly bears have been known to climb trees and stand on objects in order to reach carcasses.
- Some grizzly bears are opportunists and change their behavior in order to take advantage of new food sources. So if you are hunting or living in grizzly country, always assume that grizzlies are in the area and make sure your camps, cabins and homes are bear proof, and that bear attractants are contained or removed.
- REPORT ENCOUNTERS WITH GRIZZLY BEARS TO FWP (1-800-TIP-MONT), U.S. Forest Service, or in an *actual emergency*, contact 9-11. Seeing a grizzly is not necessarily an encounter or an emergency. **Report encounters where the bear displayed aggressive or defensive behavior toward people, livestock or pets.**



Recognizing A Gray Wolf

- 2.5 feet tall
- 5-6 feet long
- 70-120 pounds
- Broad snout
- Round ears
- Color varies from black to white
- Long, low howl

ACTUAL SIZE

Wolves are protected by federal law under the Endangered Species Act.

The U.S. Forest Service and U.S. Fish & Wildlife Service request that hunters report any sightings or wolf sign. Please make these reports to the MT Fish, Wildlife & Parks, local Forest Service office, or the U.S. Fish & Wildlife Service at 406-449-5225.

Information provided by hunters will aid in the management and eventual removal of wolves from the endangered species list.

For more information on wolves in Montana, go to FWP's website at: fwp.state.mt.us and click on Montana Wolf Management.

Thank you for your cooperation.

CLOSED TO HUNTING FOR BIG GAME

Antelope

License quotas are tentative

LICENSES & GENERAL INFORMATION

- Antelope licenses are awarded through special drawings.
- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- License holders may legally take one antelope subject to all specifications on the license.
- Hunters may apply as a party for antelope licenses in groups of up to five. If successful, all party members will receive a license.
- Antelope doe/fawn licenses remaining after the drawing may be offered to the successful either sex license holders.

Landowner Preference

- Montana landowners who qualify may receive preference in the antelope special drawings. To qualify, one must be the owner of record or be contracting to purchase at least 160 acres of land within the hunting district applied for. The land must be used primarily for agricultural purposes.
- Preference is available to Montana landowners, both resident and nonresident, and can be designated to a member of immediate family (blood or marriage related) or employee. Only one person may use or designate preference in a partnership or corporation.

Disabled Resident Preference

- Legislation established a statewide total of 25 special antelope licenses to be issued through a special drawing process to applicants who are permanently physically disabled and nonambulatory as defined by ARM rule 12.3.106. These licenses are available only in those antelope hunting districts that have a quota of 50 or more licenses.
- Applicants must apply on department provided forms available at all Regional Fish, Wildlife & Parks Headquarters and the Helena Headquarters.
- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- Licenses awarded to successful applicants will be subject to all specifications on the license.
- Antelope may be harvested only in the specific hunting district in which the license is valid.

Definitions

- Doe/Fawn - any antelope with horns less than four inches in length measured from the top of the skull.

ARCHERY

- All licenses to hunt antelope are awarded through the special drawings.
- Archers must hold a valid antelope license and bow and arrow license (stamp) to hunt during the ARCHERY season.
- ARCHERY season is September 7 through October 12, 2002.
- All legally described antelope hunting districts are open to ARCHERY ONLY for antelope subject to the district, sex, species and any special restrictions listed on the license.
  Refer to page 14 for details on archery equipment requirements.

Multi-Region ARCHERY ONLY

900-00	Sept. 7 - Nov. 10	Unlimited Licenses - either sex - ARCHERY ONLY

- Applications must be postmarked by the U.S. Postal Service no later than June 1.
- Hunters who apply for hunting district 900 must list this as their first and only district choice.
- These licenses are valid in the following antelope hunting districts: any hunting district beginning with the number 3, 4, 5, 6 or 7.
- Archers using this license during the antelope "gun" season must wear hunter's orange.
- Successful applicants may be offered opportunity to purchase one doe/fawn, valid in HD 500, 501, 510, 513, 530, 550, 560, 570,. 571 and 590 or up to two doe/fawn valid in any hunting district beginning with the number 7.

THERE ARE NO OVER THE COUNTER MULTI-REGION DOE/ FAWN ANTELOPE LICENSES BEING OFFERED IN 2002.

- In order to make license and permit types consistent between hunting districts and regions, we have changed some of the 5-digit codes for the various big game species. The table below depicts some of the most commonly used codes and the description of each of those particular opportunity types such as 301-10 and 490-00.
  00 — Either-Sex Antelope
  10 — Doe/Fawn Antelope
  30 — Over-the-Counter Doe/Fawn License Antelope
- Both resident and nonresident hunters are eligible to apply for the following license awarded through the special drawings. Nonresidents are limited to, but not guaranteed, 10 percent of a region's quota.

Be Bear Aware!

Hunters must be able to tell
the difference between a grizzly and a black bear
because the grizzly bear cannot be legally hunted in Montana.
Three simple rules will help you make the right decision:

1. **Learn how to identify bears.**
2. **Be absolutely sure of your target.**
3. **If in doubt, don't shoot.**

See bear safety information on page 24

Look for a combination of characteristics

BLACK BEAR

GRIZZLY BEAR

Color and size can be misleading

Black bear hunters in Montana will be required to pass a bear identification test beginning with license year 2002 in order to obtain a Montana black bear license. The new identification program is intended to prevent mistaken identify killings of grizzly bears and help Montana maintain its black bear hunting season. See page 12 of these regulations for complete details.
